## WITH CCL'S SMALL DIAMETER TUBES

CCL Tube has invested over \$2MM to develop two dedicated, in-line small diameter tube production lines. From extrusion to decoration, our small tube production lines increase efficiency and output capacity. In addition to the 1/2", 3/4", 7/8" and 1" diameter tubes, CCL now produces a 5/8" diameter tube. This tube is popular with personal care, cosmetic, healthcare and specialty marketers. The 5/8" diameter tube is ideal for sample and promotion packaging, specialized dispensing, and a host of other applications.
