

CCL TUBE HOT STAMP DECORATING

Bold Reflections in Packaging Design

Mirror-Like
Special Effects

Rich and
Superior Lustre

Customized
Foil Colors

more than a glimmer of impact

Hot stamping is the decorating process of choice for the cosmetic and personal care industries. No other finishing process comes closer to producing the mirror-like, eye-catching special effects of hot stamp foils.

- INTEGRATE HOT STAMPING WITH ALL FORMS OF DECORATING •
- AESTHETICALLY PLEASING • RICH AND SUPERIOR LUSTRE

The Crowning Decorating Achievement

While offset and screen printing are exceptional in their own ways, no printing process in use today can achieve the reflective, high-gloss and mirror-like imagery achieved through foil hot stamping.

Shining a Light on High-End, Customized Elegance

CCL was the first tube manufacturer to commercialize customized hot stamping colors. Achieved by applying screen ink over a generic foil, this sophisticated level of customization adds product differentiation, definition and dimension.

State-of-the-Art Decorating

Our new, high-speed hot stamping machines — each equipped with built-in quality inspection systems and automatic feeders for added throughput — apply gloss and matte metallic graphics to plastic tubes.

Premier Brand Imagery

The eye-catching glint and shimmer of gold, silver, bronze, and other custom colored foils, conveys a premier brand image, which is an indispensable style element in the design of high-end product packaging.

AVAILABLE TUBE SIZES	3/4 diameter to 2-3/16 diameter	AVAILABLE NECK FINISHES	M5, M8, B22-400, ND20.6 Dome/slanted (3/4 only)	ADDITIONAL DECORATING	1-8 color offset printing 1-6 color screen printing Labelling
