Label-to-Closure Orientation

360° Full-Wrap with Overlap

100% Tube Coverage –
From Shoulder to Crimp

enhanced shelf appeal

WITH CCL'S LABELING CAPABILITIES

Today's labels enable marketers to reproduce photo realistic artwork on plastic tubes. From flowers, to faces or holographic effects – highly sophisticated artwork can be replicated in more detail by using self-adhesive labels as the decoration technology of choice. Let us show you how.

Shrink It or Crimp It

We've developed a unique way of transforming undecorated standard tubes into dazzling works-of-art. By using the newly developed Shrink-Over-the-Shoulder label in combination with our Crimp-Through Label, marketers can customize their tubes from shoulder-to-tube crimp.

- made with proprietary materials
- no label wrinkling or flagging
- provides 100% tube coverage
- no undecorated tube areas
- adds elegance
- ideal substrate for reproducing exceptional artwork
- enables the use of high-gloss and metallic effects
- gives a stand-alone image to a product

Wrap Your Tube or Mark the Spot

Full-wrap labels eliminate the undecorated zone that many standard labels leave behind. They provide 360° of decoration with overlap, ensure artwork continuity and are very stylish look. As a special design feature, a spot label, in a defined position, integrates effortlessly with direct printing designs.

Expanding Customer Understanding

Collaborating with our sister division, CCL Label, we offer Expanded Content Labels. Expanded Content Labels have ample space for directions for use, informative labelling, multilingual information and various promotional activities.
